- Service Concepts

Short profile

Since decades REMA TIP TOP offers their customers individual coordinated and certified solutions concerning the business segments Material Processing, Surface Protection, Automotive and Service.

With REMA TIP TOP products, services und engineering for the fields of corrosion- and wear protection of material handling systems, industrial companies are able to reduce downtimes and failure, to optimize operating safety and production capacities and to increase profit.

As one of the biggest specialists in the world for tire repairs for bicycles, automobiles, commercial vehicles and motorcycles, up to and including OTR and EM tires, REMA TIP TOP supports and actively drives this change forward with safer, more environmentally friendly and efficient products and systems solutions.– a central competence regarding climate protection, international emission legislation and dwindling oil reserves. REMA TIP TOP finds that the close partnership with the tire and automobile industry on one hand, and the professional trade on the other, is of decisive importance. The leading principle in doing so is “We manage your workshop” – with competence in systems and cross-discipline knowhow.

REMA TIP TOP stands in all its business units for quality, service and innovative solutions:
ONE BRAND – ONE SOURCE – ONE SYSTEM
